## **budget** exhibits

---

Budget Exhibits is a division of the award winning exhibition design company [HOTT3D](#). We have created a range of packages to suit exhibitors who require more than just a shellscheme, but don't have the budget to create a full bespoke design exhibit yet still require a high class exhibit.

All of our packages utilise contemporary system created structures, combined with stretched fabric prints and a range of custom furniture options.

By combining our system built structures with detailing such as raised floors, custom made reception counters and designer furniture we elevate your booth to one that is a highly professional exhibition platform for your company.

All packages are turnkey and include all manufactured items, installation, dismantling, delivery and collection, electrical signoffs and engineers signoffs as applicable.
