Introduction PROGROUP

PROGROUP has been operating since 1976, in a niche market in the Exhibition and Event Industry that demands design excellence, comprehensive shop fitting facilities, and a dedication to meeting inflexible deadlines. Our infrastructure and experience offers the full range of innovative design and co-ordination, manufacture and installation of commercial interior solutions for displays and exhibitions.

PROGROUP encompasses two companies, namely;

PROGROUP Manufacturing, comprising the design studio, the wood & metal workshop, electrical & furniture hire, and installation divisions.

PROGROUP Exhibition Systems, a BEE enterprise owned by long serving employees of the primary company. This entity provides the Octonorm compatible aluminium system for exhibition and display stands.

PROGROUP has an award winning design team who have operated in the international arena. Each job is assigned a project team who guide the job to successful completion. Using our own installation teams and fleet of vehicles, PROGROUP operate throughout Southern Africa.

PROGROUP involves the client throughout the implementation of the project, as we understand this to be critical to its success. We invite the role players to our workshops to view the pre-built structures prior to finishing.
