**SCAN**

PORTFOLIO  
version 8

// Founded in 1996,  
Scan Display is a leader  
in the Southern African  
exhibition, events, retail  
and display markets.

# // representation

Scan has branches in Johannesburg, Cape Town, Durban, Port Elizabeth and Gaborone.

The company is a member of Brussels-based IFES (International Federation of Exhibition and Event Services) and EDPA (Exhibit Designers and Producers Association), America's largest exhibition supplier network.

Scan is an active member of local industry associations: SAACI, EXSA, SATSA, Proudly South African and TPSA.

The company was instrumental in the formation of the Event Greening Forum, which promotes sustainable business practices within the South African events industry.

OWNERSHIP

# // empowerment

Scan is committed to Black Economic Empowerment, and has been awarded Level 4 Contributor BEE status.

The Scan Display BEE Trust has been established to empower previously disadvantaged staff members who are involved in the day-to-day running of the business.

Scan works closely with a number of SME companies, such as the Soweto Sewing Company, Siyabonisa, Future Link and Easy Couriers, to stimulate their growth and development.

RENEW

# // greening

Scan champions green innovations for exhibition, event and retail environments. At COP17's CCR Expo, Scan introduced a number of event greening strategies. They encouraged the exhibitors to use green stand design principles and products and offered them solutions such as biodegradable carpeting, LED lighting, eco-friendly sound damped meeting rooms and re-useable fabric branding.

# // spectrum

Scan's product range extends from custom-built exhibition stands and portable systems to roll-ups, brochure holders, clip frames and showcases.

Scan supplies the full range of exhibition and event services including shell scheme, carpeting, electrics, audio visual and furniture rental.

Scan has pioneered the use of rolled carpets, tension fabric systems and modular shopping kiosks in the local market. The company owns the rights to manufacture the modulbox™ and mo5™, mobile exhibition and event solutions, in Southern Africa.

Scan has led the way in producing eco-friendly 'green' exhibition stands and displays in Southern Africa.

- // Project management is one of Scan's core strengths.
- // The company can provide a turnkey solution for a wide range of needs.

# // project management

The team has the capabilities to:

- Design, build and manage an exhibition or event – the City of Johannesburg's 2010 Soccer World Cup Public Viewing Area and the Department of Environmental Affairs' South African Climate Change Response Expo at COP17
- Provide the full range of exhibition services – Design Indaba Expo 2006 - 2012 and Meetings Africa 2011 – 2012
- Co-ordinate the event infrastructure for international conferences – the Indian Property Show 2011 and the World Science Congress in 2011
- Provide branding and set-ups for national road shows – Whirlpool, Absa and Gautrain.

The Scan team includes a multi-disciplinary group of account managers, financial managers, architects, interior designers, graphic designers and craftsmen.

// Scan uses the latest technology to communicate the design in 3D, allowing clients to view the design from every angle prior to production.
